Sweet Briar College’s 2,840-acre campus is a beautiful setting that supports our students as they explore and forge their futures.

Sweet Briar is also an anchor for the community. The College’s friends and neighbors are welcome to take advantage of more than 20 miles of trails and attend any number of cultural events that take place each year. The Elston Inn and Conference Center is also open to the public for hosting events or a peaceful place for guests to stay.

Sweet Briar’s Campus is an architectural treasure. Marked in white on this map is the campus core that is designated as a National Register Historic District, with one of the largest collections of Ralph Adams Cram architecture in the nation.
